## Education

**Punjab University College of Information Technology (PUCIT)**  
**(CGPA 3.76)**

Lahore ,Pakistan  
December 2022 - Present

---

## Skills

- ❖ Languages : Python, C++ , C# , TypeScript, Dart, SQL , Java, CSS with Frameworks
  - ❖ Technologies : FastAPI, Flutter, Angular , Firebase , [ASP.Net](#) Core MVC , React, MERN , Git/GitHub ,VS Code, MySQL
- 

## Experience

- ★ **Software Engineering Intern — Geekinn (Private) Limited** (Aug 2025 – September 2025)  
Contributed to full-stack development at Geekinn, working on real project modules, improving UI and backend logic, fixing bugs, and collaborating with senior engineers in an Agile environment.
- 

## Projects

- ❖ **AI-Powered Multi-Tenant LMS - In Progress (FYP | Angular, FastAPI, MongoDB, LangChain)**  
Designed and developed a multi-tenant LMS enabling multiple institutions to operate independently. Implemented role-based authentication, course, assignment, and quiz management, and integrated a learning assistant using LangChain and LLMs for personalized content recommendations, Q&A, and material summarization. Deployed with a scalable, cloud-ready architecture.
  - ❖ **Discord Standup Bot (Python, Discord.py, SQL Server)**  
Developed and deployed a Discord bot to automate team standups with role-based access, scheduled reminders, configurable questions, and SQL-based reporting.
  - ❖ **GiftedMaids – Client Booking Web App (Angular)**  
Built a responsive booking platform for a real client with Google Calendar scheduling, EmailJS-based email handling, and Tidio live chat integration.
  - ❖ **ScrapUncle – Scrap Pickup Booking App (Flutter, Firebase)**  
Created a cross-platform mobile app for scrap pickup scheduling with authentication, real-time pricing, and push notifications using Firebase services.
  - ❖ **Feastly – Online Food Ordering System (ASP.NET Core MVC)**  
Developed a full-stack food ordering web app with menu management, cart, authentication, admin dashboard, order tracking, and history.
  - ❖ Developed **Quiz Management System** (Java servlets && JSP)
  - ❖ Built Weather Detector App and Currency Convertor App (Flutter + REST APIs)
  - ❖ Made Smart Notes App using Flutter + Dart Integrated Backend
  - ❖ Developed Tour Guide App using REACT & Express.
  - ❖ Employee Management System (C# .Net)
  - ❖ Developed Tic Tac Toe Game & Clones of Amazon, BBC Websites using HTML, CSS, JS.
- 

## Certificates

PUCon'25 (Securing 5th rank in CP Round 1)  
Code Fest 4.0 (Certificate of Participation)  
GeekIn Private Limited Internship Certificate
